bar1911 Beer + Coffee

At bar1911, craft beer and speciality coffee is our thing. Open weekdays at 8 am, we offer a variety of locally roasted coffee from across Eastern Canada. Our focus is on what makes each variety special, from pulled espresso shots, to slow bar methods and everything in between. We change our beans regularly to highlight different roasters from all across North America – always a little bit different, always an excellent start to the day. Be sure to ask about our coffee loyalty program – when you buy 7, the 8th one is on us!

Our 20-tap selection of locally brewed craft beers and cider is always rotating. Try your favourite brews from across the Maritimes without having to leave your seat.

Grab a bite to eat from our small bites menu in our stylish, comfortable and unique space.
