P.E.I. Bag Co.

PEI Bag Co. are manufacturers, re-sellers and creators.

THE COMPANY

In 1935, three Island entrepreneurs – Leslie F. Simmons, Lorne H. MacFarlane and Silas H. MacFarlane – saw an opportunity to meet the packaging requirements of Prince Edward Island's growing potato industry. They began manufacturing jute potato bags, and in 1936, their business was incorporated as the Prince Edward Island Bag Co. Limited. Today, the business is still in the family, owned by its founders' descendants.

DELEGATE BAGS

PEI Bag Co has a stock of quality jute bags with various designs that would be excellent as a delegate bag for conferences. Wholesale pricing and speciality printing is available.

PACKAGING DESIGN

Our in-house printing capabilities allow us to brand your packaging with your design or to add text and images to individualize and identify your product. Printing is available in black and white or in a number of colours for custom designs, and we also supply generic labels and plain packages. Using our knowledge (SGS, OGI, Mirror Flex) of labelling and packaging, UPC, and the manufacturing process of paper and poly bags, we ensure that turnaround time is as quick as possible.
