Berni Wood is a Prince Edward Island based professional photographer experienced in corporate, commercial and event photography, and whose imagination and artistic style capture the true spirit of her subjects and leaves a lasting memory, like none other.

Berni gets to know her clients, makes them feel at ease, gets a good sense of who they are, and what they are looking for; all before she turns on the camera! This, combined with technical skill and expertise, is all part of "getting it right".

Berni Wood has a Craftsman of Photographic Arts designation by Professional Photographers of Canada, a diversified group of creative artists dedicated to the highest standards in professional imaging. She is an Award Winning Photographer with National Photography Accreditations in eleven categories.

She is the current Chair of Professional Photographers of Canada (Atlantic), and a member of the National Association of Photoshop Professionals, Greater Charlottetown Area Chamber of Commerce, Rotary International and Forum for International Trade Training.

She is the owner of Reel Media Studio, a boutique studio specializing in professional photography, commercial video production, and website design. She is also the owner of Berni Wood & Associates, a management consultant company. Along with being a Professional Photographer, she is a FITT Certified International Trade Professional.

### Reel Media Studio provides a variety of services including:

- Photography
- Retouching
